

FOR IMMEDIATE RELEASE

**Liberty Business Associates, LLC Awarded Order for U.S. Army
Armor School at Ft. Benning, GA.**

CHARLESTON, SC November 15, 2017 - Liberty Business Associates, LLC announced a prime award to provide classroom instructor support to the U.S. Army Armor School at Fort Benning, GA. Liberty will be providing U.S. Army-certified instructors for the M1A1 Abrams Tank and the M2/M3 Bradley Fighting Vehicle Maintainer courses. Liberty's instructors will support the Armor School's mission of producing motivated Soldiers who are technically competent in mechanical maintenance, diagnostic equipment, and Preventative Maintenance Checks and Services (PMCS) in support of these important combat systems. Watch an overview of the school here: https://www.youtube.com/watch?v=33O_FOVtz8s&t=82.

Liberty's success is due to the company's comprehensive knowledge of current Army Training and Doctrine Command (TRADOC) philosophy, concepts, and methodologies. Liberty President Beth Robertson said, "Liberty delivers a wealth of experience supporting the Army's training mission; from classroom trainer support at several Centers of Excellence, to training simulator operation at the National Simulation Center, to training requirements development support utilizing the Joint Capabilities Integration Development System. We are excited that this award allows us to provide direct training support to our Soldiers, preparing them for future success and mission accomplishment. We feel very fortunate to be provided this opportunity."

Liberty Business Associates, LLC is a woman-owned small business based in Charleston, SC. Since inception in 2002, Liberty has provided program management and technical support services to government and commercial clients emphasizing support of requirements definition and analysis, joint interoperability, configuration management, critical infrastructure protection and business operations. Liberty's current and past clients include the U.S. Army - Combined Arms Center, Army Capabilities Integration Center, U.S. Joint Forces Command - Joint Systems Integration Center, Space and Naval Warfare Systems Center Atlantic, Department of Commerce, Department of Energy, South Carolina Research Authority, National Law Enforcement and Corrections Technology Center Southeast, and Department of Justice.
